CE Mark “Step by Step” Procedure

Equipment for Laboratory, Test, Measurement, and Control Use

Your first step is to call us at 1-847-537-6400.

We will help you:

1. Determine which directives may apply for your products
 - a. Electromagnetic Compatibility Directive (EMC) 2014/30/EU
 - b. Low Voltage Directive (LVD) 2014/35/EU
 - c. Machinery Directive (MD) 2006/42/EC
 - d. Radio Equipment Directive (RED) 2014/35/EU (if equipment is enabled with wireless capabilities)
 - e. Reduction of Hazardous Substances Directive 2017/42/EC

2. Establish which harmonized standards will be required to test to. Examples are:
 - a. EN 61326 EMC
 - b. EN 61010-1 Low Voltage
 - c. EN 60601-1-2 Medical
 - d. EN 60204-1 Machinery

3. Perform your testing at D.L.S, an accredited testing laboratory

You will receive from D.L.S.:

Formal test reports that detail testing and test results.

You will then need to:

1. Issue the manufacturers Declaration of Conformity.
2. Put the CE mark on your product.
3. Market your product in all of Europe.

Please understand that the EU EMC requirements for your product and the interpretations of the requirements may change. Please check with D.L.S for latest updates. These potential changes create risk, but we believe that your greatest risk would be to do nothing.

Call **D.L.S. Electronic Systems, Inc.** at **1-847-537-6400** for any questions you have about EU testing, scheduling and cost. We will be most happy to assist you. Visit our Website at www.dlsemc.com or Email us at jblack@dlsemc.com
